

Learn *Lean* ... The Science of Process Excellence

AWARENESS ON LEAN

 Six Sigma Alchemy[®] (P) Ltd
Business Excellence Enablers

passion for impossible

Dear Sir/Madam,

Greetings from Six Sigma Alchemy (P) Ltd!

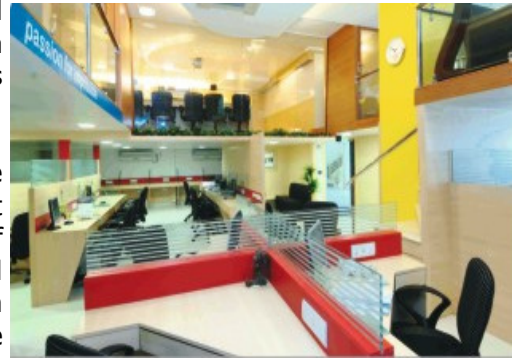

Six Sigma Alchemy (P) Ltd, Business Excellence Enabler, is one of the leading Consulting firms in Mumbai & is pleased to offer 1 Day Lean Awareness Training Program.

We request you to kindly go through the details mentioned below and let us know of your interest in the same.

Who We are?

Six Sigma Alchemy (P) Ltd (SSA) is a Business Excellence Enabler which fills up the rare consultancy space providing resources for achieving Business Excellence that will create a World Class Enterprise. The need of the hour in a rapidly changing Globalization scenario that creates a cultural shock for industries to change their "**Seller's market**" mindset to "**Buyers market**". The buzz word of 21st century business success is "**Customerism**" which needs a complete re-alignment of the mindset and processes that will always focus on customer loyalty.

SSA provides one-stop-shop solutions to enhance the competitive advantage of any enterprise through quality improvement, cost reduction, delivery improvement and service excellence. In a decade of its existence, SSA has developed a wide range of solutions that will start from the boardroom and pervade through the entire organization up to the shop floor. The solutions are packaged to transfer the knowledge and empower the organizations to sustain the benefits through internalization.

SSA believes in soiling its hands along with its client's team and partner with them till the benefits are realized. This model of consulting has enhanced the domain knowledge of the SSA team and its subject matter specialists.

What is Lean?

Lean systematically eliminates waste from the value chain and improves velocity

Lean has born from the Toyota Production System (TPS)

Lean has revolutionized the way in which the automobiles are designed and manufactured with zero inventory/ defect and phenomenally short lead time

Lean is a Holistic Philosophy, concepts & methodology

The **Lean** Philosophy aims at creating a Customer's purpose and value

Lean is a matured approach for systematically reviewing the way in which the organization "**thinks & works**" and re-engineer for sustained business performance

Why This Program? (Program Objective)

There are many questions from the industries to be answered such as "How an industry can systematically deploy **Lean** similar to the way concepts like Six Sigma are deployed?". Today Indian Industries with strong leadership are looking for a "**Transformation**" and Not an incremental "**Change**".

To answer these questions, SSA has deployed a scheme of learning in the form of course curriculum which will answer these questions.

SSA is presenting a comprehensive Training, covering a "**5 Level Certification Program**" for the **Lean** Professional to specialize on this subject.

So the program covers Lean concepts & how to deploy the same in industries. In addition to this , the one day program is a base for 5 level Certification Course for becoming a Lean Professional.
